

DAY OF SERVICE

HOW TO CREATE A DEERFIELD ACADEMY CLEAN SWELL

"The test of worth of any school is the record of service of her alumni" -Frank L. Boyden

In 2018, from any river, stream, beach, lake or waterway on Earth, you can contribute to Deerfield Day of Service. Clean-up data generated by you alone, with your family, or with a small group of friends or alumni will be merged with Deerfield Academy's aggregate efforts. You can spend as little as an hour, half-day or one or more days cleaning our waterways and contribute in meaningful service. Just log-in to Clean Swell app in the month of April, select "Deerfield Academy" as your "Group" and then start collecting!

With Clean Swell™, join a global community working to improve our ocean by adding vital data to the world's largest database on marine debris. This database is used by scientists, conservation groups, governments and industry leaders to study ocean trash and take action to ensure trash never reaches our beaches.

Before you begin...

Tell us about your cleanup.

Date: Apr 7, 2018

Number of People: 3

Group: Deerfield Academy

Type of Cleanup: Land (beach, shoreline...)

1.) Download the Clean Swell mobile app for [Android Devices from Google Play](#) or on [iOS in the App Store](#).

2.) Register the app on your mobile device. Contact rwalker@deerfield.edu if you have issues getting the Clean Swell app registered. Together, we can troubleshoot any issues.

3.) Head to the proximity of a public waterway in your region. When starting your clean-up, be sure to type "Deerfield Academy" in the field where your "Group" is requested.

4.) Be sure to click "Done Collecting" when you are finished with your cleanup project.

Group: Deerfield Academy

"The ocean refuses no river." –Sufi Chant

[Click here to visit the Ocean Conservancy](#) for more information and a quick video on the Clean Swell mobile app.

Head out to your favorite beach and use the app to easily record each item of trash you collect. Then share your effort with family and friends.

With Clean Swell, simply "Start Collecting" trash wherever you are around the world and the data you collect will instantaneously upload to Ocean Conservancy's global ocean trash database. These data points deliver a global snapshot of ocean trash, providing researchers and policy-makers insight to inform solutions. Join the thousands of International Coastal Cleanup® volunteers who are working for a cleaner ocean by picking up the millions of pounds of trash that wash onto beaches around the world. Even check out your Cleanup history, so anytime, anywhere you can see the impact you've had on making our ocean a cleaner and healthier ecosystem.

Record every item of trash you collect.

- ✓ Share your Cleanup results and impact with friends via Facebook, Twitter, and email.
- ✓ Track your total distance cleaned.
- ✓ See the total weight of the trash you collect.
- ✓ Keep a historical record of your Cleanup efforts.
- ✓ Create ocean trash solutions by contributing to a global database and helping to identify trends.
- ✓ Learn scientific facts about the impact of trash on ocean animals and what you can do to help.

Did you know? The harmful and non-biodegradable plastic rings that used to hold six pack cans of beverages have been phased-out due to legislation that was driven by Ocean Conservancy cleanup collection data. Today, we see cardboard and other more environmentally-friendly packaging due to community and school groups, families and kids who collected tons of data!
