Vaccines for disease	Recommendations	Clinical Guidance for Healthcare providers
<a href="#">Routine vaccines</a>	<p>Make sure you are up-to-date on all routine vaccines before every trip. Some of these vaccines include</p> <ul style="list-style-type: none"> <li>• <a href="#">Chickenpox (Varicella)</a></li> <li>• <a href="#">Diphtheria-Tetanus-Pertussis</a></li> <li>• <a href="#">Flu (influenza)</a></li> <li>• <a href="#">Measles-Mumps-Rubella (MMR)</a></li> <li>• <a href="#">Polio</a></li> <li>• <a href="#">Shingles</a></li> </ul>	<a href="#">Immunization schedules</a>
<a href="#">COVID-19</a>	All eligible travelers should be up to date with their COVID-19 vaccines. Please see <a href="#">CDC's COVID-19 Vaccines for Specific Groups of People</a> for more information.	<a href="#">COVID-19</a>
<a href="#">Hepatitis A</a>	<p>Recommended for unvaccinated travelers one year old or older going to The Bahamas.</p> <p>Infants 6 to 11 months old should also be vaccinated against Hepatitis A. The dose does not count toward the routine 2-dose series.</p> <p>Travelers allergic to a vaccine component or who are younger than 6 months should receive a single dose of immune globulin, which provides effective protection for up to 2 months depending on dosage given.</p> <p>Unvaccinated travelers who are over 40 years old, immunocompromised, or have chronic medical conditions planning to depart to a risk area in less than 2 weeks should get the initial dose of vaccine and at the same appointment receive immune globulin.</p>	<a href="#">Hepatitis A (CDC Yellow Book)</a>  <a href="#">Dosing info</a>
<a href="#">Hepatitis B</a>	Recommended for unvaccinated travelers of all ages to The Bahamas.	<a href="#">Hepatitis B (CDC Yellow Book)</a>  <a href="#">Dosing info</a>
<a href="#">Measles</a>	Infants 6 to 11 months old traveling internationally should get 1 dose of measles-mumps-rubella (MMR) vaccine before travel. This dose does not count as part of the routine childhood vaccination series.	<a href="#">Measles (Rubeola) (CDC Yellow Book)</a>
<a href="#">Rabies</a>	The Bahamas is free of dog rabies. However, rabies may still be present in wildlife species, particularly bats. CDC recommends rabies vaccination before travel only for people working directly with wildlife. These people may include veterinarians, animal handlers, field biologists, or laboratory workers working with specimens from mammalian species.	<a href="#">Rabies (CDC Yellow Book)</a>
<a href="#">Typhoid</a>	Recommended for most travelers, especially those staying with friends or relatives or visiting smaller cities or rural areas.	<a href="#">Typhoid (CDC Yellow Book)</a>  <a href="#">Dosing info (CDC Yellow Book)</a>
<a href="#">Yellow Fever</a>	Required if traveling from a country with risk of YF virus transmission and ≥1 year of age, including transit >12 hours in an airport located in a country with risk of YF virus transmission. <sup>1</sup>	<a href="#">Yellow Fever (CDC Yellow Book)</a>

## Non-Vaccine-Preventable Diseases

Disease Name	Common ways the disease spreads	Advice	Clinical Guidance for Healthcare Providers
--------------	---------------------------------	--------	--

**Avoid contaminated water**

Disease Name	Common ways the disease spreads	Advice	Clinical Guidance for Healthcare Providers
<a href="#">Leptospirosis</a>	<ul style="list-style-type: none"> <li>• Touching urine or other body fluids from an animal infected with leptospirosis</li> <li>• Swimming or wading in urine-contaminated fresh water, or contact with urine-contaminated mud</li> <li>• Drinking water or eating food contaminated with animal urine</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid contaminated water and soil</li> </ul>	<a href="#">Leptospirosis</a>

## Avoid bug bites

<a href="#">Dengue</a>	<ul style="list-style-type: none"> <li>• Mosquito bite</li> </ul>	<ul style="list-style-type: none"> <li>• <a href="#">Avoid Bug Bites</a></li> </ul>	<a href="#">Dengue</a>
<a href="#">Zika</a>	<ul style="list-style-type: none"> <li>• Mosquito bite</li> <li>• An infected pregnant woman spread it to her unborn baby</li> </ul>	<ul style="list-style-type: none"> <li>• <a href="#">Avoid Bug Bites</a></li> </ul>	<a href="#">Zika</a>

## Airborne & droplet

<a href="#">Hantavirus</a>	<ul style="list-style-type: none"> <li>• Breathing in air or accidentally eating food contaminated with the urine, droppings, or saliva of infected rodents</li> <li>• Bite from an infected rodent</li> <li>• Less commonly, being around someone sick with hantavirus (only occurs with Andes virus)</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid rodents and areas where they live</li> <li>• Avoid sick people</li> </ul>	<a href="#">Hantavirus</a>
<a href="#">Tuberculosis (TB)</a>	<ul style="list-style-type: none"> <li>• Breathe in TB bacteria that is in the air from an infected and contagious person coughing, speaking, or singing.</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid sick people</li> </ul>	<a href="#">Tuberculosis (TB)</a>

## Stay Healthy and Safe

Learn actions you can take to stay healthy and safe on your trip. Vaccines cannot protect you from many diseases in The Bahamas, so your behaviors are important.

### Eat and drink safely

### Prevent bug bites

### Stay safe outdoors

### Keep away from animals

### Reduce your exposure to germs

### Avoid sharing body fluids

### Know how to get medical care while traveling

### Select safe transportation

# Maintain personal security

## Healthy Travel Packing List

Use the [Healthy Travel Packing List for Bahamas, The](#) for a list of health-related items to consider packing for your trip. Talk to your doctor about which items are most important for you.

### Why does CDC recommend packing these health-related items?

It's best to be prepared to prevent and treat common illnesses and injuries. Some supplies and medicines may be difficult to find at your destination, may have different names, or may have different ingredients than what you normally use.

## After Your Trip

If you are not feeling well after your trip, you may need to see a doctor. If you need help finding a travel medicine specialist, see [Find a Clinic](#). Be sure to tell your doctor about your travel, including where you went and what you did on your trip. Also tell your doctor if you were bitten or scratched by an animal while traveling.

For more information on what to do if you are sick after your trip, see [Getting Sick after Travel](#).

**Map Disclaimer** - The boundaries and names shown and the designations used on maps do not imply the expression of any opinion whatsoever on the part of the Centers for Disease Control and Prevention concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Approximate border lines for which there may not yet be full agreement are generally marked.
